

Product Owner – Open Banking

LUXHUB IS HIRING A PRODUCT OWNER – OPEN BANKING

LUXHUB is a leading FinTech, with the singularity and strength of being the 2nd largest API Open Banking Hub in Europe. Our purpose is to empower the entire digital ecosystem to embrace the challenges and take advantage of the opportunities within Open Banking and Open Finance.

In order to achieve this, we have taken a structured approach in addressing the core challenges faced by banks and financial institutions during the initial phases of Open Finance.

First, there is COMPLIANCE; then CONNECTION; then COLLABORATION.

Our three state-of-the-art products have been developed to provide effective solutions for each of these aspects - XS2A enables banks and financial institutions to comply with the PSD2 Directive; LUXHUB One is an integration layer providing access to any bank via a unified API for account aggregation and payment initiation; and our Marketplace will create a collaborative community of financial services actors and provide a platform dedicated to connecting, testing, integrating, and nurturing innovative financial solutions. And this is why we do need YOU!

We are creating our team with skilled, motivated, open-minded, entrepreneurial people: we are therefore looking for an exceptional Product Owner – Open Banking, interested in helping to shape the future API Economy, and actively contribute to the defining of the LUXHUB Marketplace and LUXHUB services.

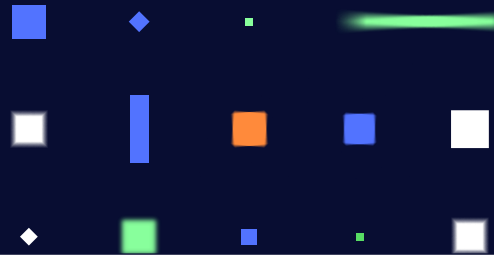

You will join a rapidly expanding team of 40+ across all departments, with a high level of skill, motivation, openness and entrepreneurial spirit. LUXHUB is also a diverse, international company, with 13 different nationalities already represented across the workforce.

Key responsibilities

- Collect feedback from existing and potential customers, in order to identify unexpressed & unmet needs, and derive potential product opportunities
- Collaborate with different internal stakeholders in order to produce clear business requirements and product specifications for the development team
- Inspire and motivate the development team to deliver innovative, exciting, and user-centred solutions in a timely manner
- Maintain and groom, with input from the development team, the product backlog and development sprints
- Define metrics and KPIs to measure the effectiveness of the team's outcomes
- Prepare and present periodic reports for both the Authorised Management and the Board
- Maintain and own the product roadmap in alignment with the company's priorities and challenges
- Support prioritisation and strategic decision-making when it comes to existing and potential product opportunities
- Work with marketing team to develop go-to-market plans for the owned products and features

Requirements

- 3 to 5 years of experience as a Product Owner in a technology intensive company, preferably in the financial sector
- Passionate about Developer Portal, RESTful API's, PSD2 and Open Banking
- Good understanding of modern Web/API Application Infrastructure and Architecture
- Analytical and problem-solving skills, great attention to detail
- Balance a self-motivated, independent mindset with a strong team spirit
- Comfortable within a start-up environment, with a demonstrated entrepreneurial spirit and personal autonomy

- Perfectly fluent (both written and verbal) in English; any other language will be considered as a real advantage

If you are interested in working in a start-up environment, facing new challenges everyday together with a highly motivated team, please send your application, including a detailed Curriculum Vitae to "jobs@luxhub.com" – reference "**Product Owner – Open Banking**"
