DATA PRODUCT MANAGER

LUXHUB is a leading FinTech, Open Banking pioneer and Payment Institution, headquartered in Strassen, Luxembourg.

A PFS (Professional of the Financial Sector), licensed Account Information Service Provider & Payment Initiation Service Provider, and REGTECH100 2022 company, our purpose is to empower the entire digital ecosystem, enabling all actors to embrace the challenges of Open Finance. Our motto says it best: "Shaping the future of finance. Together."
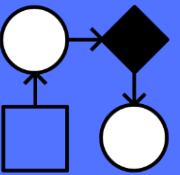

As a fast-growing company ,we do need YOU to support our development. We are expanding our team with skilled, motivated, open-minded entrepreneurial people, and are now looking for an exceptional DATA PRODUCT MANAGER.

You will join a rapidly expanding team of 32+ across all departments, with a high level of skill, motivation, openness and entrepreneurial spirit. LUXHUB is a diverse, international company, with 13 different nationalities already represented across the workforce.
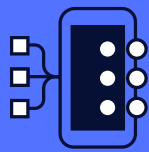

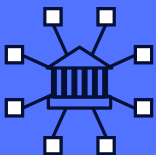

RESPONSIBILITIES

- Conduct market analysis to **identify trends and potential data-related opportunities** within the financial industry
- Engage with clients to **understand their data-related needs** and pain points. Translate insights into product concepts
- **Define and prioritize product features** based on market research and client feedback
- **Lead the end-to-end development of data products** from ideation to launch, collaborating with cross-functional teams
- Ensure that data products adhere to **data privacy regulations and financial industry compliance standards**
- **Stay current with emerging data technologies**, machine learning, and AI trends
- Collaborate with sales and business development teams to identify opportunities for new client acquisition through data-driven approaches

REQUIREMENTS

- **Master's degree** in Computer Science or Data Science, Information Systems or a related field
- **2 to 3 years of experience** in in a technology intensive company or a financial institution with a proven experience on data-related projects
- Interest and curiosity in **Fintech and regulatory topics**
- **Familiar with product management activities** such as defining product requirements, prioritizing features and working on product roadmaps
- Familiar with **machine learning and artificial intelligence techniques**
- Excellent communication and interpersonal skills to **collaborate with cross-functional teams, present findings to stakeholders**, and **engage with clients**
- Ability to **explain complex technical concepts to non-technical audiences**
- Comfortable within a fintech environment – entrepreneurial spirit and personal autonomy
- **Perfectly fluent in English** and either French or German (other languages are also considered as an asset)

If you are interested in working in a start-up environment, facing new challenges everyday together with a highly motivated team, please send your application with detailed curriculum vitae to "JOBS@LUXHUB.COM" – reference "DATA PRODUCT MANAGER".

Please note that during the last final step of our selection process, we will ask you to provide us with the bulletin number 3 of your Luxembourgish criminal record and with the equivalent from your countries of residence in the last 5 years (if applicable).

You are hereby informed that LUXHUB will process your personal data within the context of the recruitment process when you answer to one of our job offers or send us an application spontaneously. LUXHUB is in this context acting as data controller and your personal data will be disclosed internally with the relevant persons involved in the recruitment process. In order to verify the accuracy of the information provided, LUXHUB may perform checks based on professional related information available on public websites. LUXHUB will store your personal data for a period of up to six (6) months from the date of closure of the recruitment process. If you want to exercise your data subject access rights, please contact us at dataprotection@luxhub.com or LUXHUB, Attn. DPO, 153-155D Rue du Kiem, L-8030 Strassen. In accordance with applicable data protection legislation, you also have the right to lodge a complaint with the CNPD.
