

# CYBERSECURITY & SECDEVOPS ENGINEER

LUXHUB is a leading FinTech, Open Finance pioneer and Payment Institution, headquartered in Strassen, Luxembourg.

As PFS (Professional of the Financial Sector), licensed Account Information Service Provider & Payment Initiation Service Provider, and REGTECH100 2025 company, our purpose is to empower the entire digital ecosystem, enabling all actors to embrace the challenges of Open Finance. Our motto says it best: “Shaping the future of finance. Together.”

As a fast-growing company approaching its fourth anniversary, we do need YOU to support our development. We are expanding our team with skilled, motivated, open-minded entrepreneurial people, and are now looking for an exceptional **CYBERSECURITY & SECDEVOPS ENGINEER**.

You will join a rapidly expanding team of 30+ across all departments, with a high level of skill, motivation, openness and entrepreneurial spirit. LUXHUB is a diverse, international company, with 10 different nationalities already represented across the workforce.

## KEY RESPONSIBILITIES:

- Architect, design, deploy & operate security controls throughout Secure Software Development Lifecycle and into applications architecture
- Build Security into the IT Infrastructure, orchestration platform and CI/CD
- Perform security assessments such as risk assessments, code reviews, threat models, penetration tests and controls compliance checks to identify, prioritize and remediate vulnerabilities during the various phases of the SSDLC
- Support the CISO in maintaining the ISO27001 certification, by developing Security Policies, Processes and Standards, as well as conducting security training for IT Staff
- Contribute to the deployment of preventive and detective security controls, i.e. through the development of SIEM Use Cases and by supporting the Security Incident Response Process
- Endorse the role of Cloud Officer, responsible for maintaining an up-to-date and accurate cloud services registry, ensuring strict adherence to CSSF circulars and other relevant regulations, and supporting the secure integration of Cloud Service Providers (in SaaS, IaaS, or PaaS mode) into LUXHUB IT landscape
- Actively design & support the migration to a SASE/ZTNA architecture for securing LUXHUB IT infrastructure, mobile workforce and access to cloud- and datacenter-based network services

# REQUIREMENTS:

- Master degree in Computer Science, Information Systems or a related field
- Good understanding of Infrastructure and APIs security: Cryptography, Authn & Authz, Federation, as well as OWASP (TOP 10 vulnerabilities & controls)
- Familiar with SecDevOps culture and tools (GitOps, CI/CD)
- Strong experience in Application Security (threat modelling & risk analysis, secure build testing) and deployment of tools (SAST, DAST, dependency checks)
- Previous experience in Penetration Testing and application code security reviews would be an asset.
- Ideally experience or exposure to Infrastructure hardening, Cloud and containerization technologies (Kubernetes, Docker) and associated security concepts.
- Ability to provide innovative, creative solutions to tasks/problems following best practices
- Strong analytical, problem-solving and communication skills required
- Balance a self-motivated, independent work as well as strong team spirit
- Comfortable within a start-up environment, with a demonstrated entrepreneurial spirit
- Perfectly fluent (both written and verbal) in French and English; any other language will be considered as a real advantage

If you are interested in working in a start-up environment, facing new challenges everyday together with a highly motivated team, please send your application with detailed curriculum vitae to “[jobs@luxhub.com](mailto:jobs@luxhub.com)” – reference “Cybersecurity & SecDevOps Engineer”.

Please note that during the last final step of our selection process, we will ask you to provide us with the bulletin number 3 of your Luxembourgish criminal record and with the equivalent from your countries of residence in the last 5 years (if applicable).

You are hereby informed that LUXHUB will process your personal data within the context of the recruitment process when you answer to one of our job offers or send us an application spontaneously. LUXHUB is in this context acting as data controller and your personal data will be disclosed internally with the relevant persons involved in the recruitment process. In order to verify the accuracy of the information provided, LUXHUB may perform checks based on professional related information available on public websites. LUXHUB will store your personal data for a period of up to six (6) months from the date of closure of the recruitment process. If you want to exercise your data subject access rights, please contact us at [dataprotection@luxhub.com](mailto:dataprotection@luxhub.com) or LUXHUB, Attn. DPO, 153-155D Rue du Kiem, L-8030 Strassen. In accordance with applicable data protection legislation, you also have the right to lodge a complaint with the CNPD.
