

FULL STACK DEVELOPER

LUXHUB is a leading FinTech, Open Finance pioneer and Payment Institution, headquartered in Strassen, Luxembourg.

As PFS (Professional of the Financial Sector), licensed Account Information Service Provider & Payment Initiation Service Provider, and REGTECH100 2025 company, our purpose is to empower the entire digital ecosystem, enabling all actors to embrace the challenges of Open Finance. Our motto says it best: “Shaping the future of finance. Together.”

As a fast-growing company approaching its fourth anniversary, we do need YOU to support our development. We are expanding our team with skilled, motivated, open-minded entrepreneurial people, and are now looking for an exceptional **FULL STACK DEVELOPER**.

Fixed-term Contract
6 months (renewable)

You will join a rapidly expanding team of 30+ across all departments, with a high level of skill, motivation, openness and entrepreneurial spirit. LUXHUB is a diverse, international company, with 10 different nationalities already represented across the workforce.

KEY RESPONSIBILITIES:

- Designing and implementing API solutions and strategy, and building APIs that ensure security, usability and reliability
- Maintaining and evolving the API platform (development, parameterization, testing, defect management, release management)
- Developing and testing various policies for governance, management and runtime execution of APIs
- Assisting with integration, QA and performance tests
- Formalizing and keeping up-to-date sufficient documentation related to our IT programs
- Supporting the validation/formalization and implementation of procedures and processes of the function, based on available policies and other documents

REQUIREMENTS:

- 5+ years of practical Java development background
- Build and expose RESTful APIs that are scalable, maintainable, and secure
- Strong knowledge of Spring Boot and microservices architecture
- Knowledge of API security standards, including OAuth2, JWT, and mutual TLS
- Comfortable working with Docker and Kubernetes for containerization and orchestration
- Understanding of HTTP protocols, status codes, and REST principles
- Familiar with Agile practices, contributing to Scrum or Kanban teams using tools like Jira & Confluence
- Experience with Git for version control and Maven for build
- Familiarity with API Gateway technologies
- Basic exposure to Vue.js 3 for frontend development is an advantage
- Background in payments, banking, or fintech is desirable
- Fluent in English; French is a plus

If you are interested in working in a start-up environment, facing new challenges everyday together with a highly motivated team, please send your application with detailed curriculum vitae to “jobs@luxhub.com” – reference “Full Stack Developer”.

Please note that during the last final step of our selection process, we will ask you to provide us with the bulletin number 3 of your Luxembourgish criminal record and with the equivalent from your countries of residence in the last 5 years (if applicable).

You are hereby informed that LUXHUB will process your personal data within the context of the recruitment process when you answer to one of our job offers or send us an application spontaneously. LUXHUB is in this context acting as data controller and your personal data will be disclosed internally with the relevant persons involved in the recruitment process. In order to verify the accuracy of the information provided, LUXHUB may perform checks based on professional related information available on public websites. LUXHUB will store your personal data for a period of up to six (6) months from the date of closure of the recruitment process. If you want to exercise your data subject access rights, please contact us at dataprotection@luxhub.com or LUXHUB, Attn. DPO, 153-155D Rue du Kiem, L-8030 Strassen. In accordance with applicable data protection legislation, you also have the right to lodge a complaint with the CNPD.
